- ❖ Left / Right Models Available

TECHNICAL INFORMATION

- **Materials:** Tempered Glass
- **Power Supply:** 220V, 20amp
- **Steam Ready:** 2-5 MIN
- **Dimensions:** 35 x 35 x 84 IN

ELECTRICAL REQUIREMENTS

- 1 dedicated 12-2 line for steam (line 1, line 2, and ground)
- 220 volt, 20 amp GFCI breaker
- There is a length of wire from the main control box supplied to connect to power source.

PLUMBING REQUIREMENTS

- The unit is equipped with hot and cold, metal braided ½ inch water supply hose with ½ national pipe thread.
- Need to install hot and cold shutoffs with ½ -male national pipe thread (not included).
- Supply hoses are to connect from the faucet manifold on the unit to the shutoff valves.
- All water jet features are pre plumbed with reinforced braided flexible supply hose
- All fixtures and fittings must be checked for tightness as they may have been loosened during transport. It is advised to have base onsite before preparing drain location.
- Please contact Steam Planet for special instructions regarding connection of the steam generator drain and steam cup drain to the main drain.

GENERAL INFORMATION

- Units come broken down in panels and are assembled with screws, nuts and bolts on site.
- This unit assembles from the inside for convenience.
- **Note:** All shower bases are a man made stone composite and may need to be set in mortar for leveling purposes. It is advised to have base onsite before preparing drain location.
- Access panel area recommended.
- **Manufacturer reserves the right to change specs or features at anytime. Please check to confirm details. 1-866-783-2661**
